DETAILED ACTION

1. This is in response to the Applicant's amendments and arguments filed on May 19, 2004 in which claims 1, 13, 17, 25, and 29 have been amended. Claims 1-36 are currently pending.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1-4, 10, 13-16, 22, 25-28, and 34 are rejected under 35

U.S.C. 102(a) as being anticipated by Beadle et al. (ICICS '97).

Regarding claims 1, 13, and 25, Beadle teaches a method for providing user location information for a personal information management program (col. 1, abstr.), comprising: providing a plurality of user records for a user of a wireless device, wherein each user record includes at least one position coordinate and an associated time indicating a location of the wireless device at the time and the position coordinate (page 1783, col. 6, lines 36-58, page 1784, section 5.2); providing records for transmitting devices, wherein each transmitting device record includes at least one position coordinate and an associated location description providing information on the position coordinate of the transmitting device (page 1783, col. 6, line 36 to col. 7, line 6); and adding the location

Art Unit: 2681

description from at least one of the transmitting device records to at least one user record associated with the user of the wireless device (page 1784, section 5.2).

Regarding claims 3, 15, and 27, Beadle teaches wherein the transmitting devices comprise wireless devices associated with other users and fixed location transmitters associated with a location providing information on a location (page 1784, section 5.2).

Regarding claims 4, 16, and 28, Beadle teaches wherein the user records further include a list identifying one or more transmitting devices within a proximity to the wireless device of the user (page 1783, section 4).

Regarding claims 10, 22, and 34, Beadle teaches means for providing a time in the transmitting device records associated with the position coordinate indicating a time the transmitting device was located at the position coordinate (1784, section 5.2).

Allowable Subject Matter

4. Claims 5-9, 11, 12, 17-21, 23, 24, 29-33, 35, and 36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.**

Art Unit: 2681

See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
